Multiplier event E2 IMPACT workshop

E2 Impact Workshop summarizes the foreseeable impact on HEI's involved (students, teachers and administrative staff from NTNU and WUT) in relation with the world of work and the social inclusion of the vulnerable groups.

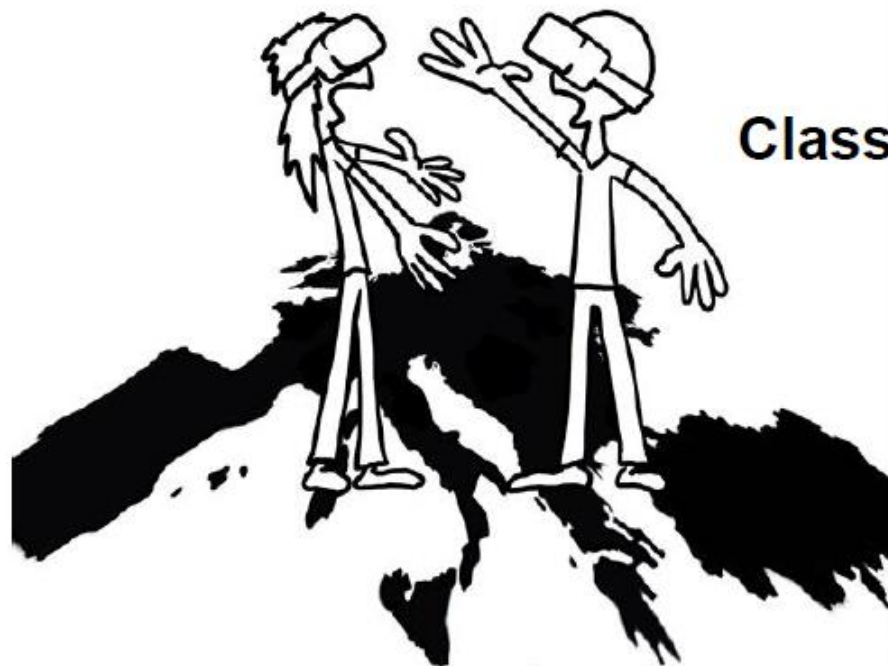

The participants at the Impact Workshop are invited among the teachers/trainers, students and administrative staff from WUT and NTNU, and at least 20 local participants (world of work representatives from: industry, multinational companies, employment agencies, NGOs and public institutions which provides work integration programs for vulnerable groups, especially Roma, migrants and persons with disabilities).

This workshop disseminates the intellectual output O3 Impact Tool and the quality assessment and the impact of the Classroom Laboratory joint course on its first graduated students (on the bases of the data base collected by the Classroom Laboratory Impact Tool). The E2 Impact Workshop was organized by the WUT, in the Month 21 of the project.

Intellectual Outputs Covered: O3 Classroom Laboratory Impact Tool

Activity Leading Organisation: Universitatea de Vest din Timisoara

Participating Organisations: Universitatea de Vest din Timisoara, Norges Teknisk-Naturvitenskapelige Universitet

ClassroomLab IMPACT Workshop

The impact of the ClassroomLab transnational learning activities on STUDENTS

Tuesday, 18/05/2021

14:00 – 18:00 (Romanian time)

13:00 – 17:00 (Norwegian time)

The impact of the ClassroomLab transnational learning activities on the WORLD OF WORK

Wednesday, 19/05/2021

14:00 – 18:00 (Romanian time)

13:00 – 17:00 (Norwegian time)

<https://meet.google.com/mue-hdaz-cmd>

The impact of the transnational learning activities on partner HEIs NTNU and WUT

Thursday, 20/05/2021

10:00 – 14:00 (Romanian time)

09:00 – 13:00 (Norwegian time)

<https://meet.google.com/tti-pcit-geh>

The transnational learning activities developed in the frame of the ClassroomLab project used innovative practices of co-teaching and co-learning based on the use of digital platforms and VR advanced technology of synchronic communication across distance. The learning process was experiential, allowing Romanian and Norwegian students to meet and collaborate, dealing with real-cases from the world of work, in direct dialog with an interdisciplinary team of teachers and researchers from partner Universities.
